PLEASE CHECK APPROPRIATE CATEGORY AND ATTACH ANY PAPERWORK TO THIS FORM. THANK YOU.

___ 1. **DOMESTIC MAIDEN MARES (U.S. and Canadian):** A negative aerobic (regular) uterine culture taken within 45 days prior to the initial cover in 2007 is required, and a negative culture taken within the current heat period for returning mares. ALL MAIDEN MARES must be jumped before coming to the breeding compound.

___ 2. **DOMESTIC BARREN MARES:** A negative aerobic (regular) uterine culture taken within 45 days prior to the initial cover in 2002 is required, and a negative culture taken within the current heat period for returning mares.

___ 3. **DOMESTIC FOALING MARES:** Mares returning in another heat period will be required to have a negative aerobic (regular) uterine culture taken within the current heat period.

___ 4. **IMPORTED MAIDEN MARES:** All fillies of foreign origin (outside the continental U.S. and Canada) which have not been qualified for breeding during the 2001 breeding season are required to have had a pre-breeding CF test, two (2) sets of negative CEM cultures from the clitoral fossa, clitoral sinus (es) and the cervix before qualifying for cover in 2006. One (1) of such cultures must be obtained in early estrus; the second may be obtained at the discretion of the attending veterinarian during a period of 7 to 14 days either before or after the cultures taken in estrus. Such imported fillies and the following three (3) mares bred to the same stallion must have CF test 15 to 40 days post-breeding. Proof of CF blood having been drawn will be required before her subsequent trip to the breeding compound. A negative aerobic (regular) uterine culture taken within 45 days prior to the initial cover in 2006 is required, and a negative culture taken within the current heat period for returning mares. ALL MAIDEN MARES must be jumped before coming to the breeding compound.

DATE CULTURES TAKEN -- 1st Set _____ 2nd Set _____

___ 5. **IMPORTED FOALING AND BARREN MARES:** Contact the State Veterinarian's Office in Frankfort, Kentucky regarding testing procedures and the acquisition of a Quarantine Release for the 2007 breeding season. A copy of the Quarantine Release must be on file with the Winfield office before the mare is booked. The requirements for the negative aerobic (regular) uterine culture on Domestic Foaling and Barren Mares will apply as stated above.

___ 6. **DOUBLE COVER:** Those mares returning for a second cover in the same heat period.

___ 7. **RETURN COVER:** All mares returning for cover in another heat period are required to have a negative aerobic (regular) uterine culture taken within the current heat period.

Please have this form completed and signed by a representative of the mare's boarding farm. Additional forms may be obtained at the breeding compound.
